

NOTICE: ANNOUNCEMENT OF AVAILABILITY OF DRAFT PERMIT

PERMIT NO.: ST 8072

APPLICANT: Akzo Nobel
2701 Road "N" NE
Moses Lake, WA 98837

FACILITY: Eka Chemicals
2701 Road "N" NE
Moses Lake, WA 98837

Akzo Nobel has applied for a State Waste Discharge permit for Eka Chemicals in accordance with the provisions of Chapter 90.48 Revised Code of Washington (RCW) and Chapter 173-216 Washington Administrative Code (WAC).

Akzo Nobel presently owns and operates a production facility in Moses Lake, Washington that has two operating units: Bleaching Chemicals and Paper Chemicals. The majority of finished products are used in the pulp and paper industry. The wastewater, following treatment, must meet the requirements of the Washington State Water Pollution Control Act and applicable regulations for a permit to be issued.

Following evaluation of the application and other available information, a draft permit has been developed which would allow the discharge of treated industrial wastewater from Eka Chemicals to the City of Moses Lake, Dunes Treatment Plant.

A tentative determination has been made on the effluent limitations and special permit conditions that will prevent and control pollution. A final determination will not be made until all timely comments received in response to this notice have been evaluated.
